Off-grid Hot Tub

Off grid wood-fired hot tubs £3,990 +VAT & delivery

Elevate the glamping experience for your guests and boost their per capita spending by offering a luxurious wood-fired hot tub as part of their stay. Our high-end, off-the-grid hot tubs guarantee exceptional returns on investment. Each tub is meticulously crafted to meet the highest standards, employing premium materials and manufacturing techniques.

Our tubs are meticulously shaped using PE molding to achieve unique design. This production method ensures that our tubs are not only fully recyclable but also nearly indestructible, making them ideal for families and ensuring utmost safety.

This spacious hot tub comfortably accommodates 4-6 people and is equipped with cozy benches and 4 plush headrests positioned around its perimeter.

The Wood-fired Hot Tub is conveniently delivered, fully assembled, and ready for immediate use. It includes a 35kw external wood burner for efficient heating. Compared to untreated wood, our thermowood hot tubs are more resistant to rot and mould, ensuring longevity
