## Wood-fired stoves

## Our beautiful & efficient wood-fired stove range

The Clear Sky Range of stoves are super-efficient, clean-burning and meet the new low emissions for the European 2022 standard

They are designed with passion and dedication, engineered with excellence to deliver an efficient and clean burning flame to maximise the fuel being burnt.

Built with attention to detail, making it simple and easy to operate with a focus on providing warmth, and a beautiful centre piece in your space, staging a dancing flame with glowing embers through a large glass window.

The Clear Sky Range has passed the latest United Kingdom and European Clean Air accreditations for DEFRA and the Eco-Design Standard.

- 10 year extended warranty
- Approved to the Eco-Design 2022 Standard for minimal emissions
- Fully tested, accredited to BSEN-13240 and CE Marked
